

EAST RENFREWSHIRE COUNCILCABINET14 March 2019Report by Head of AccountancyTRADING UNDER BEST VALUE**PURPOSE OF REPORT**

1. The purpose of this report is to reconsider the classification of Council activities in terms of trading operations as defined by the Local Government in Scotland Act 2003 and as modified in June 2013 by the Local Authority (Scotland) Accounts Advisory Committee (LASAAC).

RECOMMENDATION

2. The Cabinet is requested to approve that there are no trading services operated by the Council that should be classified as "significant".

BACKGROUND

3. Following a report to the Cabinet on 17 February 2011 it was approved that the Council no longer classify any of its trading operations as significant.

4. This decision was reached after taking account of the CIPFA/LASAAC guidance, which defined a trading operation as having to meet **both** the following criteria: -

- the service is provided in a 'competitive environment' - i.e. the user has discretion to use alternative providers.
- the service is provided on a basis other than straightforward recharge of cost - i.e. users take the service on the basis of quoted lump sums, fixed periodical charges, or rates, or a combination of these.

5. Subsequent guidance has now been provided by LASAAC advising that trading operations may only apply to external trading and to those services which are not statutory.

6. It is appropriate that the Council reviews services with a view to considering Significant Trading Operations on an annual basis. This report reviews activities for the year ending 31 March 2019.

MATTERS TO BE REVIEWED*Competitive Environment*

7. A competitive environment exists simply where there is a mature marketplace with a choice of alternative suppliers.

8. A competitive environment also exists where the user is a member of the public who has a choice of alternative providers for e.g. a local business which can choose who will collect its commercial waste.

9. **Conclusion - some services are operating in a competitive environment.**

Recharge at Cost

10. Within Environmental Services there are several activities that include a profit element within their service recharges e.g. Special Uplifts

11. **Conclusion - some services do not operate on a recharge of cost basis.**

Basis of Charges

12. The Council adopts a number of different methods of charging for services but not all of these are within the scope of trading operations.

- Charges for commercial and industrial properties are not related to cost as they are levied on a rental basis.
- Some charges have no direct relationship to full cost recovery as they are specified by Scottish Government e.g. Development Management

13. **Conclusion - charging for services does not necessarily mean the service is trading.**

Test of Significance

14. In addition to the fundamental tests of competitive environment and recharge at cost, the guidance emphasises the importance of applying a test of significance. This test is important as it determines which trading operations require to maintain a statutory trading account, distinct from other non-statutory trading accounts which can be kept for internal purposes. The criteria for considering the test of significance should be set corporately and applied consistently across different trading operations although they should not be regarded as fixed and final as they will have to adapt to the changing circumstances of the Council. Suggested criteria in the guidance are:

- Financial criteria
 - Turnover of the trading operation should exceed 1% of the Council's gross operating expenditure.
 - Risk of financial loss to the authority being exposed in carrying out the operation
- Non Financial Criteria
 - Whether the trading account is important in demonstrating service improvement and the achievement of targets
 - Whether the authority is exposed to risk of service or reputational loss in carrying out the operation
 - Whether the service areas are likely to be of interest to key stakeholders and their needs.

15. The classification of whether a trading operation is regarded as significant will depend on whether the answers to these questions are mainly yes or no.

16. **Conclusion – there may be some services’ trading operations that are significant.**

CONCLUSION

17. Taking the above conclusions into account a detailed review of services is attached at Appendix A. In addition a summary of trading operations and the criteria used to determine if they are significant is shown at Appendix B.

18. The outcome of the review is that there are no trading operations classified as significant for statutory purposes, this is consistent with last year’s findings.

RECOMMENDATION

19. The Cabinet is requested to approve that there are no trading services operated by the Council that should be classified as “significant”.
