BACKGROUND AND REPORT

Departmental Objectives for Charging

3. In previous years the majority of the charges were set at a level to ensure that the full costs to the department were being recovered. More recently where it was thought there would be no detrimental effect on the up-take of a service, charges have been increased to generate additional income. This year, charges have been generally increased at 3.0% to reflect inflationary pressures across 30 charging areas.

Services Reviewed and Proposed Charges for 2018/19

4. The department currently has 45 services where charges are applied. Five of these services are nationally prescribed leaving 40 services to be reviewed. As part of the annual review exercise, there was one service where it has been decided to remove charges for the commercial street sweeping as there has been no demand for the service.
5. No changes are proposed to 6 areas where reviews were previously carried out.
6. The Burial Ground Charges Report presented to Cabinet on the 29 January 2015 highlighted the fact that the burial charges within this Council are well below the national average. At the time of the report it was indicated that a further review was underway, this was completed in 2016/17 and charges incrementally increased in the report presented to Cabinet on 1 December 2016. As part of the review, a full benchmarking exercise of all other Councils charges for this service was undertaken. It is now proposed to increase all charges to at least match with the national average. In addition, it is proposed to introduce a new service / charge to allow residents to purchase a coffin lair in advance; this will be limited to fifty lairs per year.
7. The Roads service has reviewed the existing charging structure for the hire of 'No Parking' cones and concluded that the existing charge did not necessarily recover the loss of cones or reflect true costs. A new scheme is now proposed which protects the Council's interests.
8. It is proposed to introduce a new charge for the supply of large commercial bins to new Housing Developments where communal containers are more suitable than individual wheeled bins.
9. In the table below, the following codes are used to denote the Charging Classification and Policy for 2018/19 in respect of each service area:

Classification:

- i) To accord with policy / strategy
- ii) Market-based charge
- iii) Statutory charge

Charging Policy:

- a) charge to recover full cost
- b) charge to recover specific part cost (e.g. all direct costs)
- c) charge to make contribution to service revenue
- d) charges which are nationally prescribed

FINANCE AND EFFICIENCY

10. The impact of the proposed fees and charges on levels of use, and levels of income, will be taken into account in the preparation of revenue budgets for 2018/19.

CONSULTATION

11. This report has been prepared in consultation with the Finance Department and where appropriate benchmarking was carried out to compare costs of services provided by other Councils and the private sector.

PARTNERSHIP WORKING

12. There was no partnership working associated with this report.

IMPLICATIONS OF THE PROPOSALS

Equalities

13. An equality impact assessment has been carried out and there are no equality implications in relation to the proposed charges for service provided by the department.

CONCLUSIONS

14. Three new charges are proposed. We propose to increase 30 charging areas at 3.0% and 1 charge is being removed.

	<p>BUILDING STANDARDS SERVICE – PROPOSED CHARGES FOR 2018/19</p> <p>LETTER OF COMFORT FEES FOR UNAUTHORISED WORKS CARRIED OUT PRIOR TO 1st MAY 2005</p>
---	--

Unauthorised works carried out prior to 1st May 2005 will be charged as follows.

For minor works with a construction value up to £10,000 a flat fee of £450 will be payable. This is based on The Scottish Governments national Table of Fees. This covers the initial inspection and 1 return visit if necessary. Any additional inspections will be charged at £132 per visit.

For value of works between £10,000 and £50,000, the fee payable is based on the Scottish Government Late Completion fees. Currently this is 300% of the fee in the national Table of Fees (i.e. the Building Warrant fee x 3)

The value of work will be estimated in accordance with the BCIS Quarterly publication of construction costs. The inspecting surveyor will measure the works at the time he/she visits the property, and the applicant will be advised if there is any adjustment required to the fee due to incorrect measurements. The fee paid covers the initial survey and one subsequent inspection if required. Usually, the initial inspection and follow up inspection are sufficient to allow the letter of comfort to be issued. Any further inspections will be charged at £132 per inspection.

For works where the floor area of the property has not been increased, the minimum fee will apply.

As a result of the inspection, we may require the applicant to provide third party certification for the works, such as a structural design certificate from a qualified structural engineer. In the case where electrical works have been carried out, these may be required to be tested and certified by an approved electrician and a copy of the electrical certificate passed to the building standards surveyor prior to the letter of comfort being issued.

Remedial works may be required in cases where minimum building standards have not been met. The inspecting surveyor will advise if any works are required to obtain the letter of comfort.

Expired Building Warrants

Works carried out with the benefit of a building warrant, applied for prior to 1st May 2005, which has subsequently expired without a certificate of completion being issued can be covered using the letter of comfort system, providing that the works have been carried out entirely in accordance with the stamped approved plans issued with the original building warrant. The fee for this service is £258. This will cover administration, the initial survey and one subsequent inspection if required. Any further inspections will be charged at £132 per

inspection. If the works are not in accordance with the approved plans then the fee charged will revert to the fees for unauthorised works above.

Building works prior to 1982

Works carried out prior to 1982 can be covered by a letter of comfort. The fee for this service is £132 and does not require a survey or inspection.

Important Information

The letter of comfort scheme will cover works up to a value of £50,000. Any unauthorized works valued above £50,000 will require a formal Late Completion application together with plans and certification as may be required to assess the works.

Cheques should be made payable to East Renfrewshire Council and should accompany the application. Applications payed for by cheque will not be processed until the cheque has cleared, This may take up to 10 working days. Debit card payment can be made by phoning 0141 577 3008.

Applications received without the appropriate fee will not be processed.

Building Warrant Exemption Letter (Service No. 25)

Appendix 5

Exemption Letter without site inspection	£132 administration fee
Exemption Letter with site visit	£264 (Exemption letter administration fee plus 1 non statutory inspection fee)

NOTES

Although works may be exempt from requiring a building warrant, they still require to be built in accordance with building regulations. If the works as inspected do not meet the regulations you will be required to carry out remedial works to bring them up to standard

Where it is found that the works would have required a building warrant, you will be asked to apply for a Late Completion Certificate (where the works were carried out after 1st May 2005) or, a Letter of Comfort (where the works were carried out prior to 1st May 2005). You may also be asked to carry out remedial works to bring the building up to current building regulations. There are also additional fees to be paid. The extent of the works may require drawings to be submitted and processed at the applicant's expense. Building Standards Surveyors will advise you further if you require to apply for either a Late Completion or a Letter of Comfort.

An inspection of works may result in statutory action being taken if the works are found to be unsafe or a significant breach of building regulations
